Today's generation has multiple platforms to exhibit their talent. The enthusiasm of the students and millennial parents is praiseworthy. Most of the time parents and students are doing the best they can but sometimes face hurdles outside their control which can affect the achievements. We reanalysed to how to honour the excellence and celebrate learning that goes beyond our traditional awards. After extensive brainstorming with students, parents and teachers we at Rhythms group want to celebrate the victory of each student by presenting

RG's Star Student Award

(Achievers today leaders tomorrow)

OUR AIM BEHIND THE CHILD CENTRIC AWARD

It is rightly said 'every great achiever knows the power of motivation'

The Directors /management of Rhythms group & SCLRRC are familiar with the child psychology and pedagogy of education being in the field of education for several years. Awards are a way to show that the student is both appreciated and celebrated, recognizing students for their excellence in a particular field or subject. Even other qualities like efforts, improvement and cooperation as well can increase confidence, offer a sense of accomplishment and generate respect in a peer group. Awards encourage a child to do better. They serve a form of motivation and improve their performance.

Our child centric RG's Star Student Award is to inspire a student to excel as a lifelong achiever.

ABOUT RHYTHMS GROUP
